

CALL FOR PAPERS

8th Hellenic Data Management Symposium (HDMS 2009)
31 Aug. - 1 Sept. 2009,
Athens, Hellas
<http://hdms09.di.uoa.gr/>

Paper submission deadline is: June 05, 2009

The Hellenic Data Management Symposium (HDMS) is the annual forum for the Greek database community to present and discuss recent advances in the data management field. After a successful series of seven events held since 2002, the 8th symposium will be held in Athens, on Monday, 31st of August 2009 and Tuesday, 1st of September 2009, right after the VLDB conference that will be held in Lyon, France this year.

The program of HDMS 2009 will include research paper presentations, tutorials, demos and panels. The key criterion in judging submissions is that of technical content. As such, papers recently accepted for presentation in top international conferences may be also submitted to HDMS and considered for inclusion in the unofficial HDMS proceedings.

TOPICS OF INTEREST

Topics of interest include (but are not limited to):

- Core database technologies (query processing and optimization, concurrency control, etc), as well as non-traditional data management architectures (e.g., data stream management, P2P, replication, and caching)
- Data management applications (e.g., Web mashups, social networks, scientific databases, sensor networks, etc.)
- Models and languages for the management of data (e.g., XML, probabilistic data models, meta-data management, multi-media, etc.)
- Techniques to achieve performance and scalability in the management of data (e.g., indexing, hardware accelerators, etc.)
- Other aspects of modern information systems such as security, privacy, personalization, user interfaces, etc.

IMPORTANT DATES

- Proposals for panels, tutorials: June 05, 2009
- Paper submissions due: June 05, 2009
- Notification of acceptance: July 03, 2009
- Symposium dates: Aug. 31 - Sep. 01, 2009

SUBMISSION INSTRUCTIONS

Research papers must be submitted electronically in PDF. Please visit the HDMS'09 web site (<http://hdms09.di.uoa.gr/>) for access to the paper submission system. Novel papers should be formatted according to the official ACM Proceedings format (available at: <http://www.acm.org/sigs/pubs/proceed/template.html>) and should not exceed twelve (12) pages.

Papers already accepted for presentation in top international conferences can be submitted to HDMS in their original format.

To help the Greek community form a consistent corpus of terminological terms, all accepted papers, must be accompanied by (i) title, and (ii) abstract in GREEK. This information is not required for the submission; still, corresponding authors of accepted papers should provide the PC chair with these data.

Proposals for tutorials, panels and research prototype demonstrations should either be in their original format (if already accepted in major database conferences), or, they should not exceed two (2) pages, including the speakers, panelists, and the general concept of the proposal.

ORGANIZATION

General chair: Alex Delis, University of Athens
ad@di.uoa.gr, <http://cgi.di.uoa.gr/~ad/>

PC chair: Panos Vassiliadis, Univ. of Ioannina
pvassil@cs.uoi.gr, <http://www.cs.uoi.gr/~pvassil>

PROGRAM COMMITTEE

Anastasia	Ailamaki	Ecole Polytechnique Fédérale de Lausanne
Panos	Chrysanthis	University of Pittsburgh
Antonios	Deligiannakis	Technical University of Crete
Irini	Fundulaki	ICS-FORTH
Minos	Garofalakis	Technical University of Crete
Marios	Hadjieleftheriou	AT&T Shannon Labs
Maria	Halkidi	University of Piraeus
Stavros	Harizopoulos	HP Labs
Yannis	Ioannidis	University of Athens
Panos	Kalnis	King Abdullah University of Science and Technology
George	Kollios	Boston University
Yannis	Kotidis	Athens University of Economics and Business
Nick	Koudas	University of Toronto
Georgia	Koutrika	Stanford University
Alexandros	Labrinidis	University of Pittsburgh
Nikos	Mamoulis	University of Hong Kong
Yannis	Manolopoulos	Aristotle University
Dimitris	Papadias	Hong Kong University of Science and Technology
Yannis	Papakonstantinou	University of California at San Diego
Evaggelia	Pitoura	University of Ioannina
Dimitris	Plexousakis	University of Crete
George	Samaras	University of Cyprus
Timos	Sellis	IMIS-Athens
Alkis	Simitsis	HP Labs
Spiros	Skiadopoulos	University of Peloponnese
Dimitri	Theodoratos	New Jersey Institute of Technology
Yannis	Theodoridis	University of Piraeus
Peter	Triantafillou	University of Patras
Zografoula	Vagena	Concentra Consulting Ltd
Vasilis	Vassalos	Athens University of Economics and Business
Yannis	Velegrakis	University of Trento
Vassilis	Verykios	University of Thessaly
Stratis	Viglas	University of Edinburgh

DBHELLAS

[dbhellas](#) is a mailing list for the members of the Greek database community.

To subscribe to dbhellas you need to send a message to dbhellas-request@hdms.gr.

To post a message, send an email to dbhellas@hdms.gr with the message as the body of the email.
